Superior Claim and Risk Management

Workers' compensation claims tend to get bigger, more complex, and more expensive with time. Eastern Alliance's proactive approach to claim and risk management benefits your loss experience and keeps your costs down:

- **ecovery**® philosophy that puts injured workers first, with a focus on returning them to wellness and productivity as quickly and safely as possible
- Low pending claim count per claim representative, means more time to manage each claim
- Proactive focus on early intervention and disability management
- Industry-leading medical care management programs and partnerships that can help dramatically reduce claim costs
- Fraud prevention resources, including "red flags" for identifying potential fraud, reporting information and links to state fraud bureaus and awareness websites
- **N3L3**® philosophy focuses on fatal and life-changing exposures and offers proactive safety analysis, education and training
- Extensive risk management consulting services, focused on practical and behavior-based safety solutions that produce results and reduce losses, featuring a collaborative approach
- N3L3 Safety Leadership certificate program teaching how to influence an organization's safety culture to produce better outcomes by preventing fatal and life-changing injuries.
- Online/on-demand safety resources, including videos in English and Spanish, webinars, training materials, toolkits, templates, handouts and more

Eastern Alliance is licensed in the following states:

- Eastern writes incidental exposures in gray-shaded states
- Supplemental coverage possible through Benchmark Insurance Company partnership
- Eastern-managed solution supports businesses within our core operating states
- Contact your underwriter for details
